Swim MegaSprint 17:00 start Middle Distance 07:00 start prompt

There will be a short lakeside safety briefing at 06:45 which is important for you all to hear. The lake is approximately 500m from Transition, please leave sufficient time to get to the briefing.

The route from the swim is on a mix of tarmac, grass, and gravel paths. You are advised to consider an additional pair of old shoes or flip flops which you may leave at lakeside to aid the run from the swim exit to T1. They should be left neatly alongside the path or left with a friend or supporter.

The swim entry will be via a floating pontoon. This is also the exit point.

There will be a mass start in the water, signaled by a klaxon horn. The route is two laps in a clockwise direction, marked by large swim buoys.

Should you experience difficulty, please roll on to your back, and raise your hand and one of the Water Safety team will attend. No backstroke is permitted.

On leaving the water, it is permissible only to remove your wetsuit to your waist before making your way to transition. **Swim cut-off time is 45 minutes for the MegaSprint and 1 hour 15 minutes on the Middle Distance**

Transition - T1

Entry into T1 will be clearly marked and marshalled. Locate your bike. **You must put your helmet on and fasten it before you remove your bike from the rack.**

Ensure your race number is clearly visible to the rear.

You may take as long as you like in transition but bear in mind the clock continues to run.

Leave transition and push your bike to the bike course.

Bike Course

The bike route is one lap on the MegaSprint and three laps on the Middle Distance, ridden in an anti-clockwise direction.

You must put on and fasten your helmet before removing your bike from the numbered rack, then push your bike until you reach the Mount Line.

Stay on the road ahead, unless directed otherwise by Cycle Route arrows.

There is one split junction toward the end of each lap on the Middle Distance. A sign will advise you to follow straight on at the end of Lap 1, and 2, and turn left at the end of lap 3.

Marshals should be at each direction change. Should you see a fellow competitor in difficulty, please relay this information to the next marshal or Raynet Radio operator.

A sweep bike/ support vehicle will accompany the final competitor.

The route is on open public roads, so please obey the rules of the road.

Drafting is not permissible. Please avoid riding within 10m of the rear wheel of the rider in front of you. You have 15 seconds to overtake another rider. Any reported drafting may be punished by exclusion.

The route will be checked, but due to the rural nature of the route, please expect the unexpected. Potholes, surface changes, mud etc. are all a possibility.

On returning to Transition, please dismount at the line and push your bike to your numbered racking location before removing your helmet.
